STATUS REPORT

Course of business during the first six months of 2002

In the first six months of 2002 Intertainment has achieved several operative successes in the field of buying and selling rights.

With the sale of three film packages to enterprises in Great Britain, Eastern Europe and Germany, Intertainment increased its sales volume and its earnings considerably in the second quarter of 2002, as compared with the first quarter. The sales volume for the second quarter 2002 amounts to 9 million Euros, the earnings before taxes amount to 0.6 million Euros. For the first six months the sales revenues amount to 11.5 million Euros, and the earnings before taxes amount to minus 2 million Euros. Between the first and the second quarter of 2002, the cash position has increased from 10.3 million Euros to 18.6 million Euros.

Intertainment has a solid financial basis, which will allow for further development of its activities in film production. In the first six months of 2002, Intertainment has achieved further success in its lawsuit against Franchise Pictures, which had been filed in December 2000 because of fraudulently inflated budgets.

Rights-trade

In spite of the difficult situation in the European media-market, Intertainment has managed to sell three film packages during the first six months of 2002. In May of 2002, Intertainment sold a film package of Free-TV-Rights to England, and an All-Rights-film-package to Eastern Europe. At the end of June 2002, the Tele München Group purchased a film package from Intertainment AG to distribute in German Free- and Pay-TV. Among others, the titles of the films were "The Whole Nine Yards", "Art of War", "Things You Can Tell Just by Looking at Her", "Camouflage" and "Takedown". Further revenues from the sale of the film packages will be recognized during the next report period.

In connection with the Franchise lawsuit, further negotiations with our Spanish licensee became necessary, because films, for which down-payments had already been made, could not be provided. The parties have reached an agreement to fulfill the deal with the films that are deliverable. Thus, a part of the risk-precautions could be dissolved.

Film production

In the context of a First-Look and Co-Financing Agreement with Paramount Pictures, during the first six months Intertainment developed the film "Blackout" together with Kopelson Entertainment. Paramount, which finances 35% of the film budget, will distribute the picture in North America. Intertainment retains all international rights outside of North America.

The partners are working on several other film projects including the thrillers "Decoy" and "Fast Forward". Up to the end of June 2002, Intertainment has altogether invested 13.1 million dollars in film productions.

Lawsuit against Franchise Pictures

In the first six months of 2002, Intertainment's lawsuit against Franchise Pictures has proceeded well. In May of 2002, a judge upheld two RICO-Claims against Franchise Pictures and its two partners, Elie Samaha and Andrew Stevens. "RICO-Act" stands for "Racketeer Influenced and Corrupt Organizations Act". According to this special American law, which had been introduced as an "Anti-Mafia-Law" in the middle of the eighties, victims of organized crime are entitled to triple compensation and to the refund of attorneys' fees.

In addition to the compensation claims against Franchise, Samaha and Stevens on grounds of organized crime, the court also upheld the RICO-allegations of a criminal enterprise involving Comerica Bank (formerly known as Imperial Bank) and WorldWide Film Completion Inc.

The decision of the court supports the intention of Intertaiment, to also include the Comercia-Bank, as well as the completion bond companies WorldWide Film Completion and Film Finances in the range of liable parties because of their fraudulent cooperation with Franchise. The lawsuits, which Intertainment is preparing at present, will most likely be filed in Los Angeles by September 2002.

SightSound Technologies

SightSound Technologies, in which Intertainment owns 22.8 per cent and which holds the American patents for digital audio- and video-download via telecommunication-lines in the USA, is the ideal partner for the future market: download of films via the internet. Intertainment is considering to increase its share in SightSound by stock swap in the long run. For this reason Intertainment requested an extension of permission for the acquisition of up to ten per cent of its own shares at this year's general meeting, for which approval was granted.

Merchandizing

The preparations for the start of the new video of Rudolph 2 "Rudolph – And the Island of Misfit Toys" are running at full blast. The German version of the film was synchronized by well-known actors or showmasters, such as Michael Schanze, Katja Riemann, Wolfgang Völz, Ralf Bauer and Milka Loff Fernandes (VIVA). The talented actor Tristano Casanova is once again the voice of "Rudolph – The red-nosed Reindeer". Revenues from the exploitation of the video, soundtracks and other merchandizing-products will first be recognized during the Christmas season in the fourth quarter of 2002.

General meeting in 2002

All seven items of the agenda were resolved by the voting shareholders and shareholders representatives with a large majority. In addition to approving the acts of the executive board and of the supervisory board, as well as the election of the auditor, one of the essential decisions of the shareholders' meeting was the authorization of the corporation for the acquisition of shares of its own. The authorization already expressed last year was thereby extended until January 16th, 2004. The general meeting has furthermore agreed to the adjustment of the stock option programs of 01-18-1999 / 07-09-1999 and of 06-27-2001 together with the corresponding amendments of the articles of association. The adjustment had become necessary after the average spot quotation, as a reference course, had been discontinued by the Frankfurt stock exchange.

(I) Accounting- and Valuation-Methods

Intertainment uses the same accounting-, valuation- and consolidation methods for the Interim-Report as were applied for the Group Statement of the financial year 2001. Separate explanation of these principles is renounced in the context of the Interim-Report.

(II) Notes on the Balance Sheet

1. Fixed assets

The license for the new version of "Rudolph – The red-nosed Reindeer" is accounted for in the intangible fixed assets for the first time to June 30th 2002 at a value amounting to TEUR 493 (December 31st, 2001: TEUR 0).

The down payments for intangible fixed assets concern advance payments for producer remunerations in the amount of TEUR 7,304 (December 31st, 2001: TEUR 4,491).

The financial fixed assets of TEUR 15,381 (December 31st, 2001: TEUR 15,036) contain an approx. 22.8% share of Intertainment AG in the company SightSound Technologies Inc. This holding was depreciated with 25% in the financial year 2001, due to increased risk discounts for enterprise- and industry-specific-risks. In the second quarter of 2002, Intertainment AG additionally granted SightSound Technologies Inc. an interest-bearing loan in the amount of TEUR 345, the repayment of which is planned for April 4th, 2003. Intertainment AG is entitled to change the loan amount into shares in SightSound Technologies Inc. at any time during the term of the loan.

2. Film rights

Up to June 30th, 2002, the stock of film rights amounts to TEUR 22,220 (December 31st, 2001: TEUR 27,701). Scheduled depreciations for sold film rights in the amount of TEUR 5,481 were carried out in the second quarter of 2002 (December 31st, 2001: TEUR 5,393).

The film rights have developed as follows:

	June 30, 2002	December 31, 2001

Notes to the Consolidated Financial Statements as at June 30, 2002 in Accordance with the International Accounting Standards (IAS)

INTERTAINMENT GROUP

The <u>down payments made</u> in the amount of TEUR 24,570 (December 31st, 2001: TEUR 24,570) mostly consist of payments of the first rate for film rights of Franchise Pictures, which are directly connected to the pending law suit. Depreciations were carried out on these down payments to December 31st, 2001 in order to be able to take possible exploitation losses from the controversial film rights and further risks from the lawsuit into account. Secondly, precautions for further risks arising from the continuing legal disputes with Franchise Pictures were taken. These assessments are still correct to June 30th, 2002.

3. Trade accounts receivable

Until June 30th, 2002, the trade accounts receivable amount to TEUR 42,329 (December 31st, 2001: TEUR 54,242). The reduction is essentially due to the compensation of unpaid items, the offset of down payments received, and varying exchange rates.

4. Other assets

The other assets amounting to TEUR 5,328 (December 31st, 2001: TEUR 12,373) are reduced particularly by tax repayments from the second quarter of 2002. This alteration is compensated by the increase of the film project costs to TEUR 2,461 (December 31st, 2001: TEUR 271).

5. Liquid funds and liabilities due to banks

Up to June 30th, 2002, Intertainment reported liquid funds of TEUR 18,633 (December 31st, 2001: TEUR 14,231), and liabilities due to banks amounting to TEUR 19,210 (December 31st, 2001: TEUR 23,227).

<u>Liquid funds:</u>

The increase of the stock of financial means is mainly based on deposits from the sales of film rights, and a tax refund.

Liabilities due to banks:

The liabilities towards banks are diminishing as planned. The outstanding liabilities amounting to TEUR 19,184 are due at the latest on June 30th, 2004. The transfer of the exploitation rights, the transfer of ownership of the film as security on a debt, as well as the transfer of the claims from sales contracts were agreed with the banks. We also refer to the details given with regard to the liability conditions (number IV 3).

6. Equity

To June 30th, 2002, Intertainment has an unaffected nominal capital of TEUR 15,005, which is dispersed to 11,739,013 no-par-value shares. (IV) Other details

1. Earnings per share

The earnings per share is determined by dividing the quarterly result by the weighted number of shares. The number of shares to June 30th, 2002 amounts to 11,739,013, unchanged; this therefore also represents the weighted number. In the second quarter of 2002, a negative result per share in the amount of EUR 0.35 may be calculated, this also corresponds to the diluted result per share.

2. Other financial commitments

Other financial commitments exist for remunerations for producers amounting to TEUR 31.550, and for obligations from leasing- or renting contracts amounting to TEUR 4.914. A part of these obligations amounting to TEUR 9.139 have a remaining period to maturity of less than one year.

The financial commitments for the purchase of film rights reported in the financial year 2000 no longer exist, because, due to the ongoing legal dispute, Intertainment has decided not to pay the second installment of the film titles concerned. In case the financing banks of Franchise Pictures should decide to instigate arbitral proceedings for the payment of the second installment with regard to the film titles concerned, and if an arbitral award would be given in their favor, the banks would be compelled to offset the revenue from the exploitation of these film rights with the financial obligation of Intertainment. Intertainment assumes, that the revenues from the exploitation are fundamentally higher than the financial obligation for the due second installment.

Notwithstanding any possible arbitral procedure, the film rights in the legal dispute remain to Franchise Pictures. A definite decision regarding the fraud with the inflationary budgets will be made in this procedure only.

3. Liability conditions

Due to the financing of the film rights by banks, and the corresponding granting of credit lines, the film rights and the corresponding claims of Intertainment with regard to the exploitation of these rights were transferred to the banks to provide security coverage. In connection with this, claim transfers of Intertainment Licensing GmbH were made
